## **EXPERTISE**

---

Excellent knowledge of the main environmental aspects: climate change, air and water pollution, circular economy, biodiversity, LCA, ecc.

Knowledge of reporting and communication tools aimed at enhancing commitments to sustainability

Professional experience with both public and private companies to guide business lines along the direction of sustainable development

Excellent knowledge of the Office Package

Good professional knowledge of English

Since 2011 I have carried out various voluntary activities (summer camps in Albania, activities with disabled and homeless, working camp in goods confiscated from the mafia, president of a cultural association) which made me acquire group management and interpersonal skills. Also as a volunteer, I am in charge of a basketball team for disabled. I am municipal councilor of my city (Crema, 35.000 inhabitants).
